FORTUNE CHINWO

Frontend Developer with foundational experience in building and optimizing user interfaces for web applications. Skilled in using HTML, CSS, and JavaScript to bring designs to life, with a focus on creating responsive, accessible, and user-friendly web experiences. Passionate about learning and staying current with emerging frontend trends and technologies.

I am enthusiastic about converting business requirements into technical solutions, as well as developing and launching new initiatives within and outside of my existing technical capabilities.

TECHNOLOGIES

- HTML
- HTML 5
- CSS
- Tailwind CSS
- Javascript
- React
- Git
- Github

EXPERIENCE

Beothkings Global – *Junior Frontend Developer*
January, 2024 – present

- Familiarity with responsive design principles and frameworks such as Bootstrap and Tailwind CSS to ensure a consistent user experience across devices.
- Basic understanding of React.js, with a focus on creating functional components and handling state.
- Experience with Git for version control and collaboration on team projects.
- Developed and maintained static websites and single-page applications as personal projects, implementing core frontend functionality and styling.
- Contributed to small projects in a team setting, collaborating with senior developers on code reviews and iterative design improvements.
- Ensured layouts work seamlessly across various screen sizes and devices, using media queries, flexible grids, and responsive frameworks.
- Implemented interactive features, such as sliders, carousels, modals, and form validation, using JavaScript or jQuery.
- Added interactivity through event handling (e.g., clicks, hovers, form submissions), often using JavaScript event listeners and framework-specific handlers.
- Collaborated on projects using Git, handling basic commands (commit, push, pull) and branching workflows to manage code contributions.
- Participated in pull requests, making small contributions and reviewing code written by others, and receiving feedback for learning best practices scalability.
- Stayed updated on new technologies and best practices in frontend development by participating in team discussions, attending workshops, and completing online courses.

SKILLS

- Listening
- Adaptable
- Organized
- Self Motivated and Result Oriented
- Documentation Control
- Team Building
- Technical Support
- Project Management
- Public Relations
- Team Work
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

EDUCATION

Port Harcourt Polytechnic - Diploma
September 2015 - July 2017
Diploma in Business Management from Port Harcourt Polytechnic, Rivers State, Nigeria.

EXPERIENCE

Beothkings Global – *Junior Frontend Developer*

November, 2023 – January, 2024

- Built simple web pages and components using HTML for structure and CSS for styling, practicing responsive design techniques with media queries and flexible layouts.
- Used CSS properties, fonts, colors, and spacing accurately to align web pages with provided design specifications.
- Practiced writing small JavaScript functions to add interactivity, like toggling visibility, changing styles on hover, and handling simple form inputs.
- Created pull requests for team review, implementing feedback to improve code quality.
- Used console logs and breakpoints to trace errors in JavaScript and correct simple issues under supervision.
- Helped ensure components adapt to different screen sizes using media queries, working on mobile, tablet, and desktop layouts.
- Learned the importance of semantic HTML elements (like <header>, <footer>, <nav>) for better accessibility and SEO.
- Learned how to fetch data from APIs using JavaScript (fetch and libraries like axios) and display data within HTML elements.
- Familiarized myself with Agile practices like standups, sprint planning, and retrospectives, following the team's workflow for task assignment and tracking.
- Continuously improved HTML, CSS, and JavaScript skills through assigned tasks, tutorials, and mentorship.
